# E3 Retail Offers You A Complete POS Solution To Manage Your Business

Whether you are assisting a customer in a store, in their home, at a pop-up event, or over the phone you can securely process a sale, return, or answer questions on any device and in any location.

## Personalized Customer Interactions

We create brand-driven loyalty experiences required to build long-term relationships between your business and your customers. From personalized promotions, to private shopping events, we ensure your customer's journey is connected before, during, and after the sale.

## Secure Payment Management

Payment security is imperative to your business. Because we hold an EMV end-to-end certification, you can rest assured that our integrated payment processing solution system greatly helps to mitigate fraud.

## Powerful Operations Hub

Effectively and efficiently manage your business with our comprehensive back office business controls, inventory management, item and pricing maintenance, reporting and analytics providing the capabilities for you to setup merchandise and sell it within minutes.

## Transact Anywhere

No matter how, or where, or when your customers prefer to shop, E3 will help keep your transactions linked and your customer's experiences personalized - enabling you to bring the point of sale to your customers.

## Omnichannel Inventory & Order Visibility

A near real-time view of inventory across your enterprise enables a close connection between ecommerce and in-store. This insight creates a unified customer experience while leveraging customers' profiles to view, or edit their orders.

## Rapid Innovation & Customization

You require differentiation to grow and maintain loyal customers. Whether you are revamping your loyalty program, seeking improved cross-sell opportunities, or eager to offer a new sales model, we will bring you innovation technology while tailoring it to your business.
